yes. Do you know if they intend to add wetlands/Timber Creek to list of receiving waters?

Does the monitoring point labeled on the figure as SD005 seem an appropriate location for monitoring the source that you documented on the south side of the basin?

Hi Dean,

Mpca just sent a figure depicting monitoring stations for the revised version of the minntac permit that we'll be discussing with them tomorrow despite not having a copy of the revisions yet. I'm curious about why they added SD006, and am guessing it is due to your inspection report. However, I can't access the WECAB sharepoint anymore.... Can you send me a copy of the inspection report? Also, do you have any thoughts on this figure? (there really isn't that much to say without being able to see the requirements that go along with the monitoring stations....)
